

Modernfold's New PureView® Glass Wall Partition Line Maximizes Operability, Durability, Design Flexibility

Greenfield, Ind., January 7, 2020 - Modernfold's new PureView® Glass Wall System combines distinctive beauty with exceptionally easy, reliable operation. High-quality manufacturing from this trusted industry leader provides a robust solution for many architectural settings, including banks, offices, lobbies, interior storefronts, arena skyboxes and other commercial, institutional, and hospitality applications.

Every PureView® Glass Wall System includes double-brush top and bottom seals for draft management, foot-operated face and end panel interconnecting floor bolts for maximum convenience and security. Combinations of straight, angled or segmented configurations are available to fit a variety of space division needs.

In addition to the base clear anodized aluminum rail finish, designers may also select from three additional anodized aluminum finish options. Designers also have the option to select from more than 170 RAL powder coat colors, enabling custom rail color selections to meet any design need.

The premium PureView® Plus expression of the line features convertible panels for variable egress which can be placed anywhere in the panel run – and a clean profile wherever the convertible panel is situated. PureView® Plus also features a concealed door closer in the top panel rail maintaining the slim profile of the PureView® system. PureView also takes advantage of the preprogramming capabilities courtesy of Modernfold's Smart Track™ suspension technology.

“These glass partitions have been thought through down to the last detail,” said Bryan Welch, Modernfold Managing Director. “PureView® panels can be separated from or connected to others effortlessly, safely and quickly. Backed by Modernfold's expert service capabilities, these installations ensure many years of satisfaction.””
