

Modernfold Introduces Innovations to PureView® Glass Wall System, Featuring New STC Ratings and Advanced Structural Features

Greenfield, Ind., Nov. 10, 2021 - Modernfold, Inc. is pleased to introduce several innovative additions to its PureView® glass wall system, a technically advanced, design-forward movable-wall portfolio. New selections now available in PureView® incorporate highly desired sound-control capabilities, paired panel configurations, and versatile FSW-C and FSW-G options. They highlight Modernfold's continual development of exciting products to meet the widest possible range of space division needs and challenges.

Heading the list of new product offerings are PureView® Single-Panel, fully framed versions with available STC levels of 33, 35 and 37, bringing outstanding sound control options to these popular glass-wall products.

Paired panel configurations, representing another major addition to the line, bring increased operating speed and convenience to straight-line installations.

PureView® products are also now available in FSW-C configurations and FSW-G types that employ perpendicular storage.

The broad capabilities of the PureView® movable glass wall system include uninterrupted sight lines, excellent daylighting, various glass options, vinyl top and bottom seals, convenient and secure interconnecting floor bolts, a variety of anodized aluminum options, and available powder coating in more than 170 RAL color options.

The line is offered in two unique combinations: PureView® and PureView® Plus. PureView® Plus adds the use of a convertible panel that can be placed anywhere within the wall run to allow for egress. A unique new feature of the PureView® Plus convertible panel is a concealed door closer in the top rail, eliminating bulky door headers for a clean, streamlined look across the entire run.

These lines, with all their capabilities, enhance and extend the possibilities that Modernfold brings to movable glass walls. They represent an evolving response to the developing needs of the marketplace, further extending the creative and practical reach of those who use glass walls in building design.

Approaching its 100th anniversary, Modernfold remains the leader in movable wall technology and design. For more information on all Modernfold products, visit www.modernfold.com.

About Modernfold

For more than 96 years, Modernfold, Inc. has been the premier provider of products that enable optimal space utilization. Whether the primary requirement is acoustical control, versatile space management, energy savings, or daylighting, Modernfold's innovative product solutions assist and facilitate building management. Beginning in 1925, the company helped invent the movable wall industry. Its current product line continues that leadership.

In a wide range of installations, outstanding and highly flexible results are provided by Modernfold:

Operable Partitions including: Acousti-Seal® Encore®, Acousti-Seal® Encore® Automated, Acousti-Seal® Legacy®, Acousti-Seal® Premier®, and Accordion Doors, and Movable Glass Wall Systems including: Acoustically rated Acousti-Clear®, PureView®, PureView® Plus, PureView® FSW-C & FSW-G, DRS, Compactline®, and Compactline® on ComfortDrive®.
