EMERGENCY SERVICE

When you're setting up for an event, operational problems with your partitions can spell disaster. If your air wall will not travel on the track or seals will not function you have a major problem. Modernfold has created a way to help you keep your system operating so you can fully utilize your space. Our network of skilled technicians are trained to expertly service movable walls and accordion doors. Modernfold Distributors have the experience to solve your problem and get you up and running in no time.

MAINTENANCE PLANS

Your Modernfold Distributor can also help you avoid unpleasant surprises by scheduling annual checkups, replacing damaged panels and worn out parts, and training your staff in the proper care and operation of your partitions. Preventative maintenance will keep your movable walls and accordion doors in top working order and looking their best.

RETROFIT ANY SYSTEM

Modernfold Distributor technicians are skilled in retrofitting movable space division products, regardless of manufacturer. This includes relocating or adding panels to an existing partition installing a new pass-door, changing stacking locations, and replacing drop seals. They can also update your installation or adapt any existing system to new operating requirements.
